Cox Conserves | "Life of a Soda Can"

That can of soda you're drinking...did you know that 60 days ago, it had another life? Maybe it was a refrigerator or gutter...maybe even a car...But someone recycled it so you could enjoy your delicious beverage. That's pretty nice of 'em. They gave up a reusable resource so you can quench your thirst. So you can enjoy something so light and so refreshing. Are you going to return the favor? There is no limit to how many times an aluminum can be recycled. If you just chuck it in to the trash...it will travel to the landfill, sit there while other stuff is piled on top and in 500 years, that aluminum can will still be there! So since someone was so nice to recycle it for you, do the same for someone else! Not only will you feel good, you will be helping the environment!

ANNCR: At (station), we've made it easy for you to get started, just go to (station website*) slash conserves...you'll find tips on where to recycle your old electronics, aluminum cans, conserving water, calculating your carbon footprint and more! That's (station website*) slash conserves!

Cox Conserves | "Brushing Your Teeth"

You brush your teeth right? The dentist says you need to brush for at least 2 minutes twice a day for proper cleaning. During those two minutes twice a day, do you leave the water running? If you leave it on, you're wasting four gallons of water each time you brush your teeth. That's eight gallons a day...eight gallons that could be used for something more productive. If you leave the water running, not only are you using as much energy as a 60 watt light bulb for 14 hours, you're racking up money on your water bill. Do yourself a favor and turn off the faucet while you get those pearly whites clean. Your wallet AND the environment will thank you!

ANNCR: At (station*), we've made it easy for make a difference in the environment and your wallet at (station website*) slash conserves...

- Brought to you by (client), with more fuel efficient vehicles on their new and certifies pre-owned lots than anyone in central VA! See for yourself at (address) or online at (website).

Girl Scouts | "Cookie Season is Here"

Prepared is your middle name. You always have enough napkins on wing night, plenty of band aids at the playground and of course, you always buy extra Girl Scout cookies to enjoy them all year long. However, last year - you just couldn't resist the deliciousness of Thin Mints, Dos-si-dos and Samoas and now your stock pile is empty. Luckily, Girl Scout Cookie Season is almost here so you'll be able to restock your pantry and freezer to feel prepared yet again. Visit [Girl Scouts Cookies.org](http://GirlScoutsCookies.org) to see the official cookie countdown, check out the new cookie flavor and more!
